

Piccadilly line for BVE Route Diagrams

These diagrams show the stations, main features and speed restrictions over the course of the route modelled in BVE. They are intended for use with the BVE route as a reference guide.

Data collected from various sources including Video 125 DEV, personal observation, Usenet & LU diagrams

They are not geographically accurate or to scale. You can print them if you wish to refer to them whilst driving the route – they will fit on five A4 sheets. Linespeed is 45mph unless specified
